"Where's the use of sighing?
Sorrow as you may
Time is always flying
Flying!—and defying
Men to say him nay."

Our Theme

*"High school days are swiftly flying,
Swiftly flying by."*

From our Alma Mater comes the theme of our 1950 Monti. Time flies. The older one grows the more swiftly it seems to pass. Not long ago we were pupils in the grade school. Soon we shall be part of the adult life of the nation.

As time flies it leaves its shadows behind it. It has been said that a healthy memory recalls the good and forgets the bad. We hope to present in this book a record of some of the good things of our school life to give you pleasure now and also in the years to come—

"When you are old and gray
And nodding by the fire
Take down this book."

KENNETH L. RUTHERFORD
Supervising Principal

As members of the Class of 1950, we wish to express to our Principal sincere gratitude for the patient and unfailing understanding and direction which have better enabled us to enjoy and profit from our years in Monticello High School.

To The Class of 1950:

You have been a fine class; we shall be sorry to lose you from the school. You have made many strong contributions to the work and play of student life and the vacancies which you will leave will be hard to fill.

In September 1938 you entered school and that first grade enrolled a total of thirty boys and twenty-two girls. Twenty of the original group are still together at the time I am writing this. Lester Lansky will transfer before it is in print, leaving nineteen to graduate. These are Palma Brochu, Dorothy Crawford, Lenore Madnick, Ann Mohring, Marguerite Northrup, June Novie, Shirley Slatkin, Georgia Stackhouse, Miriam Strongin, William Costa, Max Gitlin, Burton Goldstein, Burt Hecht, Stephen Oppenheim, Martin Rubashkin, Lawson Rutherford, Richard Smith, Irving Strassner and Lester Zipper.

Two members of that first grade have been graduated; you gained two members from that year's second grade; eight have left school; five have transferred and are in school elsewhere; nine have transferred and we have no record of their school careers; eight have fallen behind and are still enrolled in this school.

Your first grade teachers used to say that you were a grand group if you could learn to sit still, keep your mouths shut at times, and keep your hands off each other. You used to love to push, pull, slap and kick. As you grew up you overcame these faults to a great extent. Through the years others joined your class. Some have transferred out again; others joined you "for keeps" and are graduating as part of the class of 1950.

You have excelled in scholarship; many of you have done fine things in musical organizations, athletics, debating, dramatics and every school club. It appears that more than half of you will continue your education beyond high school.

Whether you continue your formal education or turn to self-education, don't stop learning. Our times demand leadership, courage and a revival of those qualities which in our forebears made this country great. There is much ability in the class—many of you should go far. Set your sights high and be satisfied only when you have done your best. Think; develop vision; dare to be adventurers and pioneers; do not over emphasize security.

As you progress, remember your high school. Come back to visit; keep in touch with your teachers and classmates; hold reunions. The money you accumulate or the prestige you achieve will never satisfy you unless you make friends and keep those you now have.

It is customary to wish our graduates good luck and that wish I express. To it I add the hope that many influences besides luck will contribute to the richness of your lives.

God bless you all.

Your principal,

KENNETH L. RUTHERFORD

Montebury Tales

by Shirley Slatkin

For about six years the 52 people had planned on this trip. At last in September, 1937, the entire group convened at Ye Old Grammar School Inn on St. Johns and Bedford in Monticello. Miss Cady and Mrs. Bell met us and they gave us our first directions which we would need to be good travelers and to insure our success on the trip. They explained that now, since we were old enough to make the trip, our conception of time must change.

We traveled on for six years, traveling through familiar territory learning the basic rules of the journey. Mr. Ericson, our leader, took to training us as sentinels to the rest of the group and some of us felt that before he was finished we would be accomplished guards. At this time we reached a huge suspension bridge which was the connection between the land we had been traveling in and a very different place. The people looked and acted so

differently. We were told that if we could manipulate ourselves and the horses well enough to cross the bridge we would be in the Valley of Junior High from which we would emerge in the mysterious land of High School and then be near our goal. After great anxiety, we crossed the bridge.

As we came into this new land, our thoughts changed. We began to assume new responsibilities. We passed through the Valley of Junior High and in the Ninth Year we came into the mysterious land of Freshman. We separated and traveled in two groups. One was called 203 with Dr. Gay as leader, the other was 316 with Mr. Cody as leader. Anne Marie Mohring was elected by the group to lead us through this land and Martin Rubashkin was to help her. As we traveled, we produced a show, the Freshman Frolics and all the shillings we collected were stored by Shirley Slatkin for the future use on the trip. We needed someone to record our journey and Dick Munzell was chosen for this task.

On we traveled. We came to the land of Sophomores. This was by far the strangest land we had come to. Instead of speaking the language we did, the people in this land spoke Geometry, Biology, Latin and even Spanish. As if that was not enough to make them seem queer, their clothes certainly did. At first the boys thought that the girls in this country did not have any legs. But before long they realized this was due to the clothes they wore.

In short order all the girls in the group had adopted the clothes of this land and carried these costumes through the other lands in which we traveled. Now our scribe, Richard Glover, had a great deal to write about. Margie Kaiser was kept very busy and after we gave our second show, Soph's A Poppin', had many shillings to add to our treasury. Our leaders Burt Hecht and Shirley Slatkin had a job keeping the caravan going. We had to stop riding for a little while because of the terrible snow storm that we encountered in this land. But we weathered the storm and traveled on.

All those who satisfied the custom's office by passing the required number of regents were allowed to cross the border into the State of Juniors. Here Steve Oppenheim, Georgia Stackhouse, Margie Kaiser and Red Strassner took over the lead horses. It was while we were passing through this land that a blight seemed to hit some of the girls with the consequent result that they all lost a great deal of weight. No one knew whether it was the weather or the food but it certainly afforded a topic of conversation to many. Our traveling company produced its third production—"Junior Jamboree," which was a huge success.

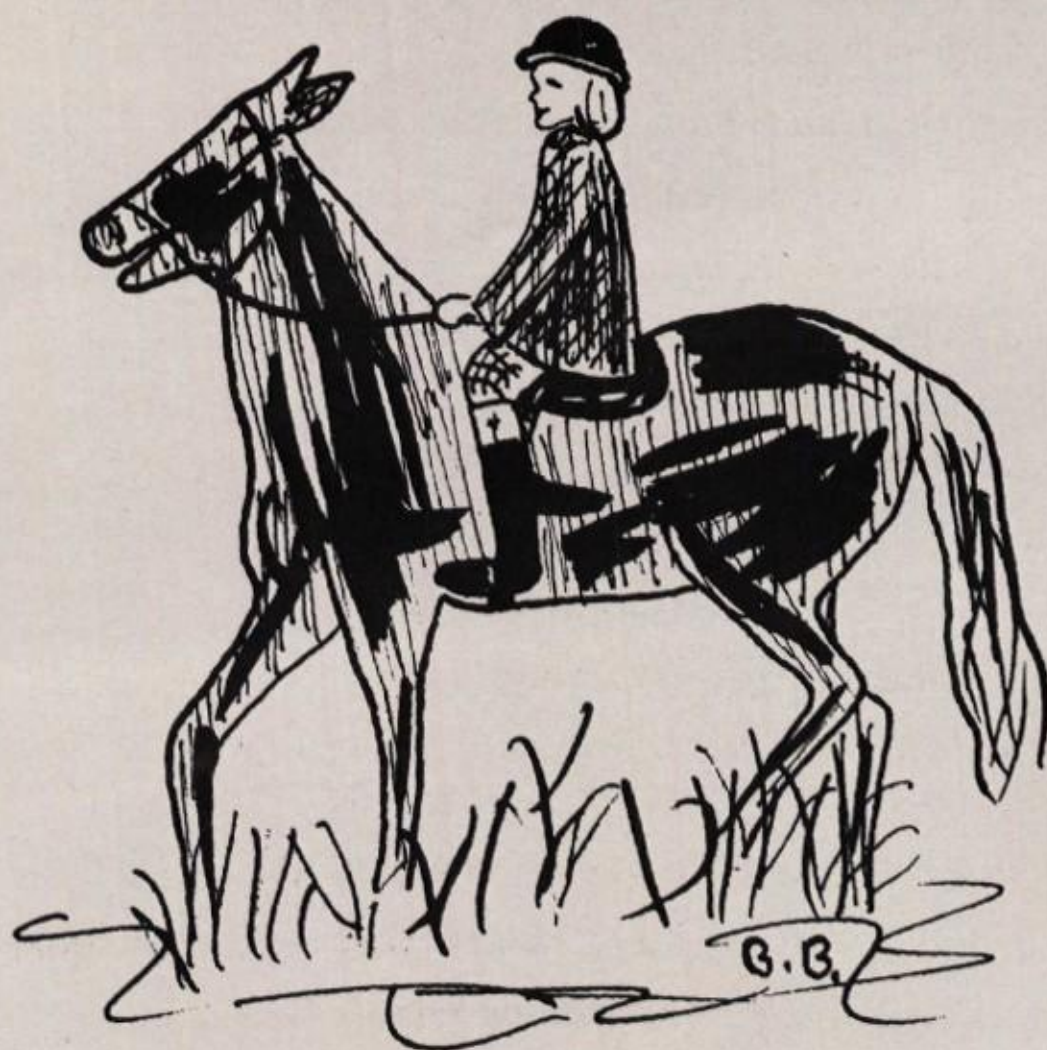

It was at this time that the class decided to have a written record of its journey and elected Shirley Slatkin to publish the book and Stephen Oppenheim to see to the finances. Since we were coming close to Se Noirland the company help-

ed elect Red Strassner to make sure that all the lands through which we were passing remained peaceful. As we came to the end of this lap of the journey, we decided to have a dance as a celebration. Margie Kaiser was crowned the leading lady and our last days in this state were ended with a great deal of fun and happiness.

At last we reached the promised land—Se Noirland. Preparations reached a feverish point. There was so much to do before the journey was completed. After we staged "Nowhere Fast", our treasurer, Martin Rubashkin assured us all that we would complete the journey in new gowns. Margie Kaiser and Lester Lansky were kept busy with all the problems the group had. Poor Richard Glover had a hard time getting enough quills what with all the writing he had

to do and the rapid pace we held. Stephen Oppenheim developed a dislike for the food we were being served with the result that he seemed to almost disappear before our eyes. Everyone was immensely relieved when we saw that he had regained his appetite. When we had almost completed our journey, Lester Lansky decided to go sightseeing in Rochester.

Impossible but true! After spending twelve years in the saddle, we have at last reached our mecca. Even though we all complained and groaned about the effects of the saddles and the bumpy ride, it will be so strange to come off the horses and walk. At first our legs will be too weak to hold us but just as we learned to ride the horses; so will we learn to support ourselves.

Class of 1950
Monticello High School

THE TIMES OF OUR LIVES

*"To wind the mighty secrets of the future
And turn the key of time."*

BY MARGUERITE KAISER

The pages of the calendar flip back, rip off, and sail with the wind into the distance—my how time flies! . . . 1955 . . . 1960 . . . 1970 . . . 1975—the silver anniversary of the 1950 graduating class of Monticello High School. Here we are at the banquet being held at the favorite hotel of the "Garden Spot of the Mountains," owned and operated by Bob Swierski in collaboration with Gerald Kosinski. These two gentlemen were at the door to greet everyone.

As I came into the lobby I saw that everything was decorated with silver ribbon, silver paper, and silver bells. The effect was magnificent. Then I began to bump into people.

In one corner sat all the angels of mercy—Carol Granquist, Lenore Madnick, Marge Northrup, Peg La Barr, Ann Mohring, and June Gluck. Their conversation went from the head to the toe and back, I suppose. I don't know—I left when the appendix came 'round again.

In the middle of the lobby I noticed a crowd milling around, attracted by something which made quite a bit of noise. I pushed my way to the center and, even though I lost my hat, it was worth it for what to my wondering eye did appear but the famed "Twinkletoes" Bill Costa, with the eminent television stars Dick Lane and Willie Autz giving a show—or to put it another way, "singing for their supper". Finally tearing myself away, I walked right smack into the one and only cartoonist who has a comic strip in *every* New York newspaper—Lorraine Sanojca. Then I nearly got in the way of a hook shot when the internationally famous girl basketball star, Ann Hulse, with the likewise internationally famous basketball star, Dick Breen, stood talking shop. Just ducking in time, I found that I was right in the center of an art discussion—in fact I was practically being used as an easel—as the painters Barbara Baker, Midge Bauer, and June Novie were talking about tinkering with the temperas.

At that point we were summoned to dinner by a familiar looking chap with a big smile—Max Gitlin. Upon entering the dining-room we heard the familiar strains of the "Alma Mater" being played on the piano by Margie Kaiser.

Honestly it was all so exciting! While trying to find my place card I met the dress shop owners Renee Bromberg, Miriam Strongin, and Ruth Strongin. With them, talking about the latest gown, was their designer, Dot Crawford.

As I took my seat, I saw right across from me Ruddick Trowbridge, *the* trombonist, leader of the renowned orchestra. (Tommy Dorsey, known well in the earlier 20th century, achieved somewhat the fame which Mr. Trowbridge possesses.) With him were his vocalists, Georgia Stackhouse and Victor Brady.

A lively conversation was ensuing at the upper end of the table — the dietitians at Bryn-Mawr College, Abbey Jacobs and Pat Smith, were enumer-

ating the calories contained in each course, and these were being tabulated mentally by the math whiz, Richard Glover. It was getting rather tough after the first three courses.

Burt Hecht, John Sauchuk, and John Smith, operators of "Hecht, Sauchuk, and Smith, Bakers of America", were drawing diagrams on the tablecloth with their forks, trying to decide whether to build an extension onto the bakery shop in New York or the one in Chicago. Helping them discuss the issue were their secretaries, Erma Zyman, Joan Smalley, and Sonja Sawitch.

Rhoda and Stanley Kolodny were jabbering excitedly to everyone about the hit their new store was making. It was known as "Kolodny's Kiddie Heaven", a virtual paradise for children, complete with candy, ice cream and toys.

Louis Dobkin and Barry Fischer, research physicists, had left an experiment which they were conducting, and they were having an argument about one of its phases all during dinner.

Right in the middle of everything Palma Brochu and Leatrice Gilbert, newspaper reporters, decided to take out their notebooks and pencils and complete the "human interest" story for the next day's paper. The "human interest" was Lester Zipper and his philanthropy, and they made it complete with pictures taken by a photographer who was a member of the same newspaper staff, Asher Viente.

After dinner we talked some more. In a little corner there sat the Hollywood beauty specialists, Betty Grant, Arlyn Hemmer, Harriet Siegel and Marion Stanton. Together they had created all the hair styles which appeared in a new much-talked-about movie.

While all were saying their last few words to each other, I noticed F.B.I. Inspector Richard Munzell exchanging a pleasant sentence or two with Captain Justin Murphy of the United States Army.

A gala event, enjoyed to the utmost, finally ended, but oh, how sorrowfully, with shouts of "In 25 years once again." We missed some of our colleagues, but we felt that perhaps they would show up at the next banquet.

...1980...1990...2000—our golden anniversary. Here we are once again in the lobby. This time everything is decorated in gold, and it is just as impressive. Almost everyone is here and included among them are people missing from the last banquet.

On one side of the table sat the distinguished Dr. Rubashkin, famous for his discovery of a drug to cure cancer. With him was his secretary, Joan Selkowitz. Dr. Rubashkin was having a pleasant talk with Justice Stephen Oppenheim of the United States Supreme Court.

On the other side sat the educator, Dr. Lester Lansky, Professor at Harvard University (he also wrote 29 Latin textbooks being used by most high schools and colleges), chatting with Dr. Lawson Rutherford, President of Colgate University.

Looking very distinguished with her snow-white hair, the famous peace negotiator, Shirley Slatkin, made her appearance, and she went immediately

to the table to tell her latest plan to Grace Wagner, Professor of Psychology at the University of Pennsylvania.

Stanley Crawford, retired Yankee baseball player, was talking with Burt Goldstein, retired coach of the Giants baseball team.

The oil magnates, Gary Shaver and Richard Smith, were puffing on their cigars and looking prosperous. Rona Okun, the famous novelist, was telling them about her newest book.

Irving Strassner, mayor of New York City, was telling Alan Koch, director of the Metropolitan Opera House (he had sung tenor for 30 years so they made him the boss), and his secretary, Mary Thompson, about the money which the city was granting for the upkeep of the House.

Then, at last, this evening came to an end, and when everyone went sadly away, it occurred to me that the silver and the gold must represent the two times in our lives when we get together—silver, the scintillating period of our prime, and gold, the glittering period of our later years when came the satisfaction from achievement.

*"Even now while I write, Time steals on our youth
And a moment's cut off from thy friendship and truth."*

Under the able direction of Mr. Milton Berlye, the Senior Class of 1950 presented a three-act mystery comedy called "Nowhere Fast."

The story takes place in a tourist camp on the outskirts of a small town.

A large sum of money is stolen from the town bank and new suspects turn up every half-hour.

This production was one of the highlights of our senior year.

"Touch us gently Time
Let us glide adown thy stream
Gently as we sometimes glide
Through a quiet dream".

*"Backward, turn backward, O Time in thy flight—
Make me a child again, just for tonight."*

REMEMBER WHEN - - - -

BY GEORGIA STACKHOUSE

High school was just something to wonder about.

Lenore Madnick tipped the scales at 35 lbs. in the first grade.

Ann Mohring fell asleep in the third grade.

We went on those long trips to the athletic field, for a grade school field day, feeling as if we were on a desert.

We got great pleasure out of those 2-4-6-8 fruit showers back in grammar school.

Our jump-rope days taught us to "take turns."

Mac was always ready with that special touch of humor.

Shirley Slatkin just couldn't help crying when her hero, Robinhood, was killed.

It was a rainy day in '43 when Mrs. Crandall left us.

Two fellows in our sixth grade, took pride in saying that they had eaten airplanes.

The boys of our sixth grade basketball team rolled up enough points to beat the seventh grade for the first time in the school's history. Of course, the cheerleaders yelled extra loud.

Mr. Ericson's titanic temper commanded the sixth Army. He even had soldiers on sentry duty in the hall.

We were pretty "gummed up" in the sixth grade.

No one could spell the word "bureau" in one of those spelling bees.

We cooked up some mighty queer concoctions to eat in 302.

The topic for debate in '44-'45, "Was it the lady or the tiger?"

The weather forecasts were the highlight of Miss Harris' science class. That is, the fun of climbing out on the roof.

Miss Best and Miss George put up with our trying days as 7th and 8th graders.

We welcomed many newcomers to our class when 1946 rolled around.

Lester Lansky made his debut in acting, with the help of roller skates.

Our class band made a big hit. Mr. Whitman helped us with our theme song.

The square set was on stage ready to dance, but what a surprise when there was no music. Who took the needle for that victrola?

"Chief" took us on a trip to New York City and how we traveled the "big city."

Leatty Gilbert's house appeared to be a dormitory.

We completed "operations Biology."

We had crazy times decorating for the Junior and Senior Proms and that "punch" we made from tea.

Margie Kaiser was the lucky lady who was crowned "queen" of our Junior Prom.

Gene Kelly came to Monti High in person...our own "Twinkle Toes Costa."

Al Jolson came to Monti High (alias Burt Hecht).

Dick Glover's ears got red on various embarrassing occasions, but what a villain he was in the "Junior Jubilee."

Stan made a big hit...no I should say 3 hits in one baseball game.

Johnnie Smith took off for California but then longed for Monti High again.

Some girls from our class walked into a dressing room in Newburgh, which they thought was for "girls."

Martin had a sudden craze for amazing ties.

There was great confusion in Ben's at 3:35, something like Grand Central Station.

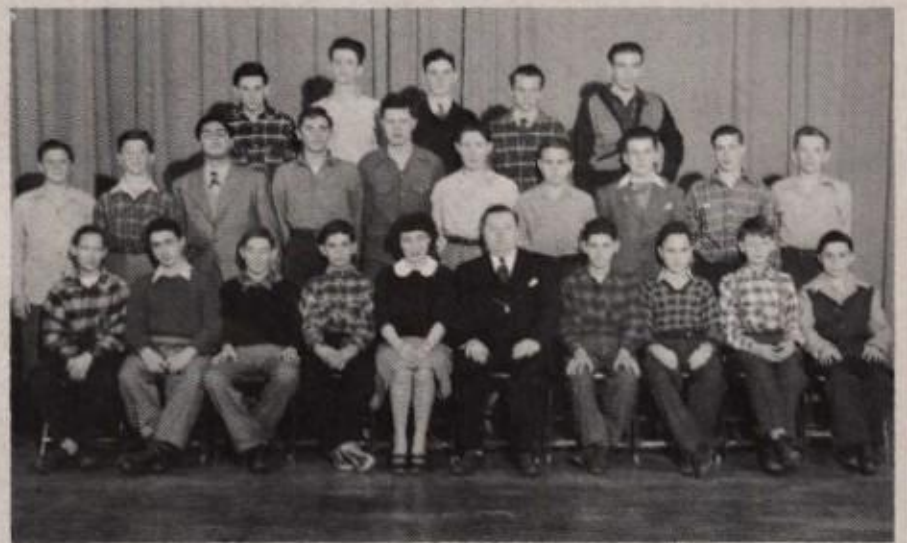

Alan Koch didn't know which television set to watch first on a certain weekend in Poughkeepsie.

Lawson was our "senior spokesman."

Steve became streamlined.

Those bumpy bus rides to school became a force of habit.
Curiosity in the chem lab nearly asphyxiated Martin and Billy.
The squirrel got loose and came running into the home ec. room.
A certain window was broken in 316, a home of some of the Seniors.
Ruth Strongin's midget battleship was the means of transportation for many.
Miss Kinsman told the "faithful 3" that they could cheer for the fifth year.
June Novie supplied her "fellow inmates" with many good things to eat.
Various teachers tried to stay in 316, but few of them lasted long.
Ann and Anne Marie were famous for fainting spells.
Miss Pelda became the faithful follower of the Class of '50.
Mr. Glasier took us in his "flying Ford" and how we thought Trinity Square
had moved.
Mimi Strongin won a dollar by putting an ice cream cone on June Novie's
head.
Tommy King managed to break a record with the number of people who were
crammed in his cute jalopy.
Rud didn't have to impersonate Tommy Dorsey with his trombone, his own
style was just as good.
Stormy weather greeted each one of our class affairs.
Renee Bromberg continually got shocks in the telephone company.
One of our classmates resembled Bette Davis—you guessed it—Midge Bauer.
Margie Kaiser, our class president, had a perfect Intermediate Algebra re-
gents paper.
Few people in 316 knew what the announcements were about.
We caught Dr. Gay balancing the attendance slip on a pencil.
Loueegie was always coming late.
Either "Sanertz" or "Peg" were always ready with some funny remarks.
Carol G. and Marge N. were inseparable, spending most of their time at the
Sul-Ora Lodge.
Miss Beam tried to break up our daily homework collaborations.
Miss Dewey cleaned our teeth for the last time.
Those of us who were inducted into the honor society were anything but "blue"
under those blue lights.
We thought graduation was in the far distant future, but now we face a bigger
future.

LEST WE FORGET

Ring in the days that have gone by
With a child's laugh and a happy cry.

Ring in the pranks and jokes we've played
And the times that after school we've stayed.

Ring in the parties that we've had—
If you recall they weren't too bad.

Ring in the night that the rain did drip
But our Freshman Frolic still was a pip.

Ring in the Soph Chain-Gang that played in a blaze
With its speed this team could always amaze.

Ring in the time when we were always stoppin'
To get a new act for Soph's A Poppin'.

Ring in the greatest show on earth—
To the Junior Jubilee this class gave birth.

Ring in the night of our Junior Prom
And the many people we borrowed things from.

Ring in the night of our Senior Play
And the lines the actors forgot to say.

Ring in our advisers, the best in the land,
For this was a class that was very well manned.

Ring in the tries to keep bona fide
With efforts that were handsome and wide.

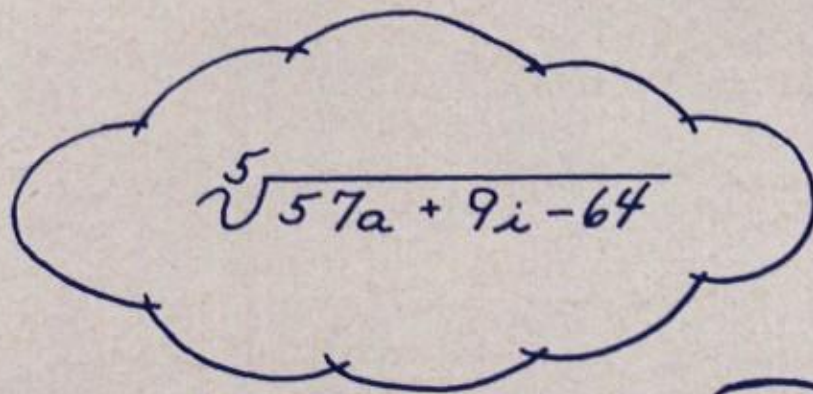

Ring in three sixteen and two hundred three—
These homerooms will always remembered be.

Ring in a day we'll never forget.
Graduation—the best thing yet.

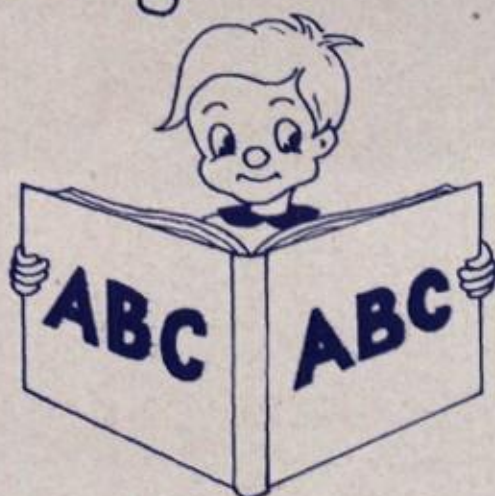

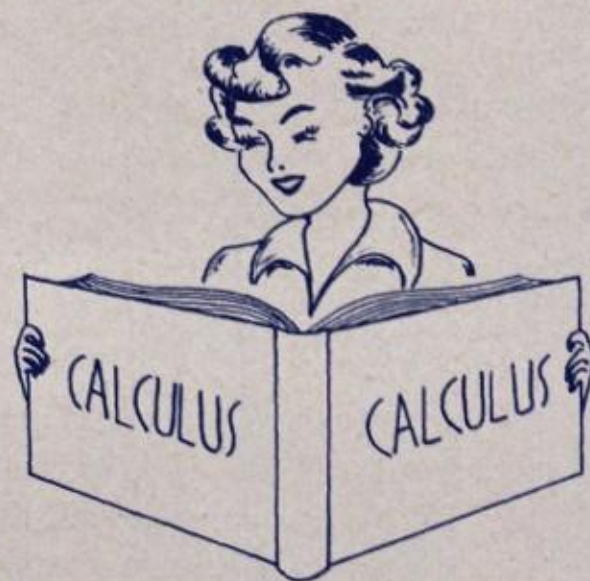

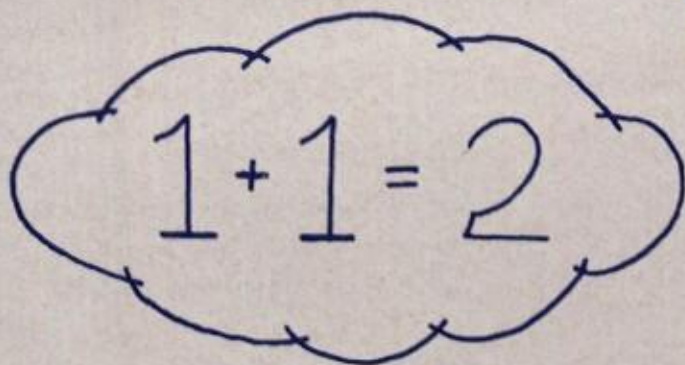

Ring in the year of nineteen-fifty—
Never was there a year so nifty.

Ring in the end of a hard won fight,
As from this school we take our flight.

Student Council

<i>President</i>	Irving Strassner
<i>Vice President</i>	Marguerite Kaiser
<i>Secretary</i>	Lester Lansky
<i>Treasurer</i>	Iris Hechler
<i>Advisers</i>	Mr. Glasier, Miss Long

The Student Council acts as the student legislative body of the high school. It consists of one representative from each homeroom, the vice-president of the Senior Class, who is the secretary and the G. O. P. who presides. Various members of the council attend out-of-town school meetings to bring in new ideas on how to run the school government more efficiently. The council meets every Friday.

A. Cooper, L. Clark, L. Feller, L. Rutherford, I. Strassner, Mr. Hoose, M. Kaiser, B. Cohen, J. Whitney.

Student Court

Adviser Mr. Hoose

The Student Court serves to see that the laws enacted by the Student Council are carried out. The Court is held once weekly. At that time the offenders who are reported by the members of the traffic squad are brought before the Court to plead their cases. The Court acts as a jury and renders a verdict. In case of guilt it imposes sentence on the offender.

It is the job of every monitor to be on duty at all times when in the building or on school property. The right to report to the Student Court any students misbehaving in the halls and throughout the building is vested in each monitor.

Back Row—G. Wagner, M. Kaiser, J. Fleischer, L. Gilbert, S. Perelmutter, B. Lasker; *Center Row*—B. Shalman, M. Rubashkin, L. La Roche, M. Gitlin, N. Silverman, J. Rubner, A. Rubin, G. Stackhouse; *Front Row*—L. Sanjoca, S. Oppenheim, L. Rutherford, Dr. Gay, S. Slatkin, L. Madnick, L. Lansky.

Technician Lawson Rutherford

Adviser Dr. Gay

The Broadcasting Squad has charge of making announcements over the school public address system at the beginning of each session. Membership on this squad gives practice in microphone technique and clear diction. At the same time a service is performed for the faculty and students of the school.

The Squad is composed of volunteer students selected by the adviser after their voices have been tested.

<i>Treasurer</i>	Wilbur Stanton

The Projection Squad includes all boys who give their time to the audio-visual aids program of our school. The club is therefore a part of the Squad. The service is for educational purposes during school

Athletic Council

The Athletic Association has control over the function of all the athletic programs in M.H.S. It must raise a considerable amount of money to keep our teams going.

The council votes on what boys should receive their athletic M's for participation in sports. These awards are usually presented at the A.A. banquet in April, which is one of the outstanding social events of the school year.

Soccer again is one of the top sports in M.H.S. This team's record of five wins and two losses is very commendable. Led by co-captains Goldstein and Strassner this team scored fifty points in the seven games to their opponents' six.

The once "forgotten sport" in M.H.S. this year proved to be one of the most outstanding sports. Undefeated in their six meets they won not only the Section 9 championship but also the DUSO championship.

The first five runners on the Monti squad were a menace to all the schools encountered. They finished together which is necessary in winning a cross-country meet.

DUSO VILLAGE CHAMPION

This year's team led by capable Capt. Dick Breen had a successful season.

Two school records were broken. One by Jim Culligan in the two hundred low hurdler and the other by Dick Breen in the shot-put.

Baseball 1949

Baseball in M. H. S. this year was very successful. The team finished in second place in the DUSO Village League.

The team was under the able leadership of Coach Somerville and Capt. Slim Somerville.

J. V. Basketball 1949-1950

This year's Junior Varsity was a well-organized and highly talented group. They show great promise for next year. Their record of 8 wins and 6 losses does not show much of their ability on the court. Most of their fellows will be the mainstays on next year's team.

Back Row—L. Zipper, G. Kinne, A. McCullough, I. Kushner, R. Trowbridge, L. Rutherford, I. Strassner; Front Row—W. Mitofsky, Manager, R. Breen, M. Gitlin, J. Culligan, L. Schwartz, B. Goldstein, Coach Somerville.

Varsity Basketball

Basketball has always been the major sport in M. H. S. and we have always put out a team that all could be proud of. This year's team is no exception.

At the end of the first half of the year's schedule, Monticello was in a three-way tie for first place with Kingston and Newburgh. In the second half Monticello took third place.

<i>Publicity Manager</i>	Marianne Bauer
<i>Adviser</i>	Miss Kinsman

The organization manages affairs pertaining to extra-curricular activities in athletics for girls and enables them to both hold and attend many play days during the year.

The qualifications a girl must have to win an award in athletics are set by the Girls' Sports Organization, which consists of all girls. The organization provides the numerals, shields, M's, and keys for the girls who have earned the right to wear these awards.

Two members of each class are elected to represent their class.

Leaders' Corps

<i>President</i>	Patricia Laufersweiler
<i>Vice President</i>	Dorothy DeCristofalo
<i>Secretary-Treasurer</i>	Betty Lou Hill
<i>Adviser</i>	Miss Kinsman

The Leaders' Corps at Monticello High consists of only the best grade of feminine athletes. In order to be eligible for membership a girl must pass vigorous physical and written tests.

The girls meet once a week during which they learn to become athletic leaders and also actively participate in athletics. They help to plan extra-curricular activities in athletics and try to make the physical education department more appealing to a large number of girls.

Intramurals

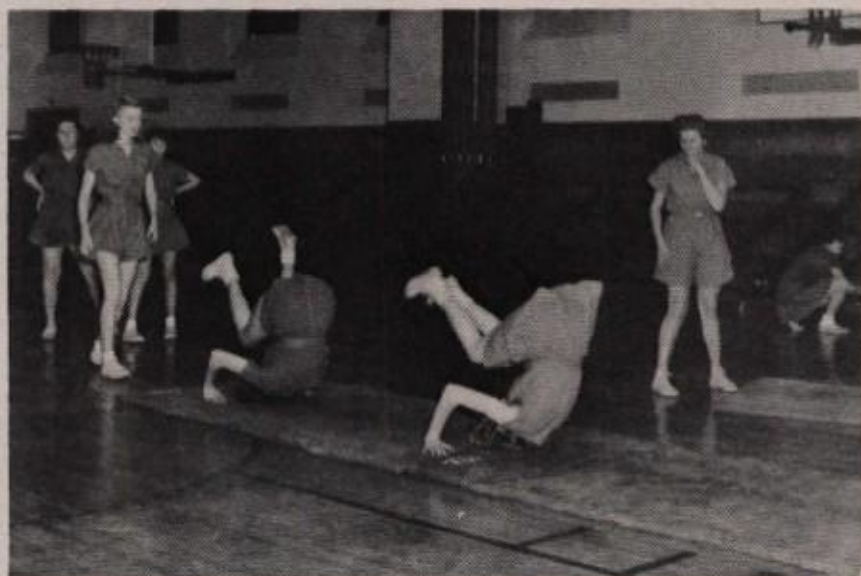

During the academic year there are eight sports in which girls participate. These athletic contests are held during the noon hour and after school. It is interesting to note that during 1949 and 1950 more girls participated in intramural sports than ever before.

The season for girls' sports begins with soccer, an outdoor sport. The action takes place on "The Hill," where many an exciting game can be seen. This is the roughest sport in which girls participate.

Then we go indoors for volleyball, one of the three sports which we play over a net—a game of thrills in which you have no physical contact with your opponents. Volleyball is one game which clearly pictures the importance of team-work.

Next we sign up for basketball teams, a sport which is generally agreed to be the favorite in our school. The games have been

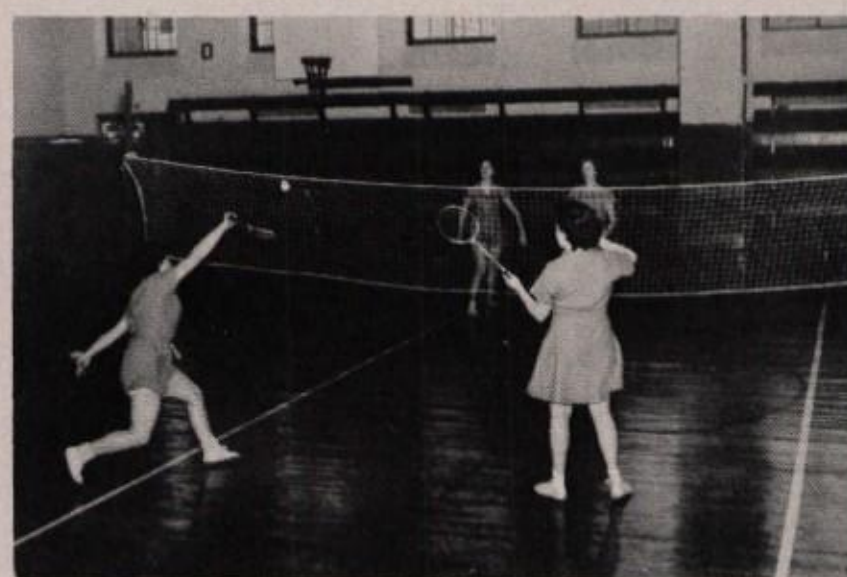

highly speeded up since the introduction of the newest rules—exemplified by the unlimited dribble.

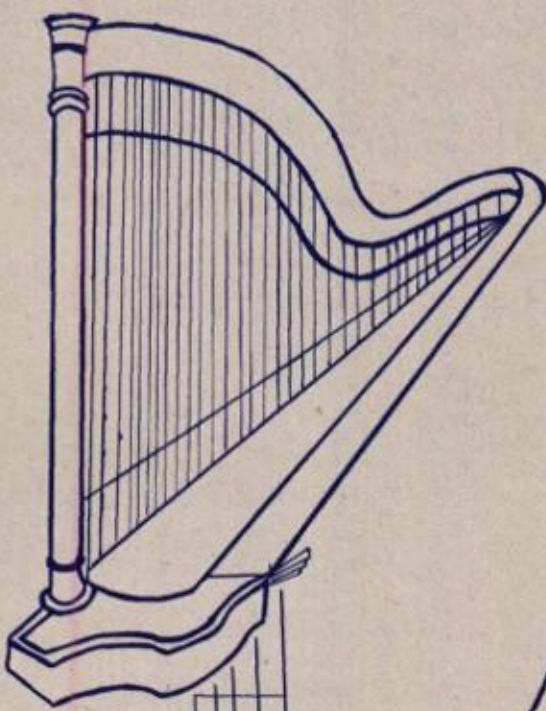

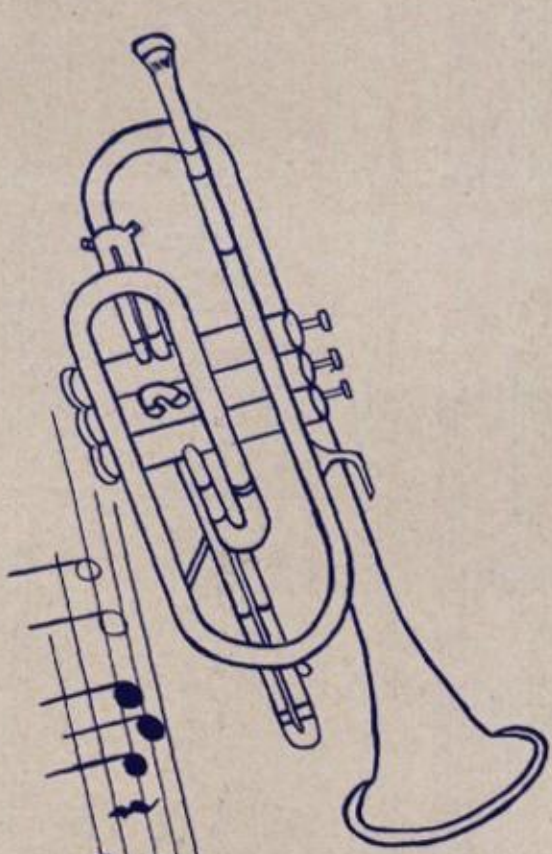

During the winter months, bowling is another sport open to girls, and we are proud to say that there are several girls in our school who can top 150.

Leaving basketball for another season we begin three separate sports which are run simultaneously. Badminton, which is played in doubles, shuffleboard and deck tennis. The effect is pretty much like a three-ring circus and the competition is both keen and interesting.

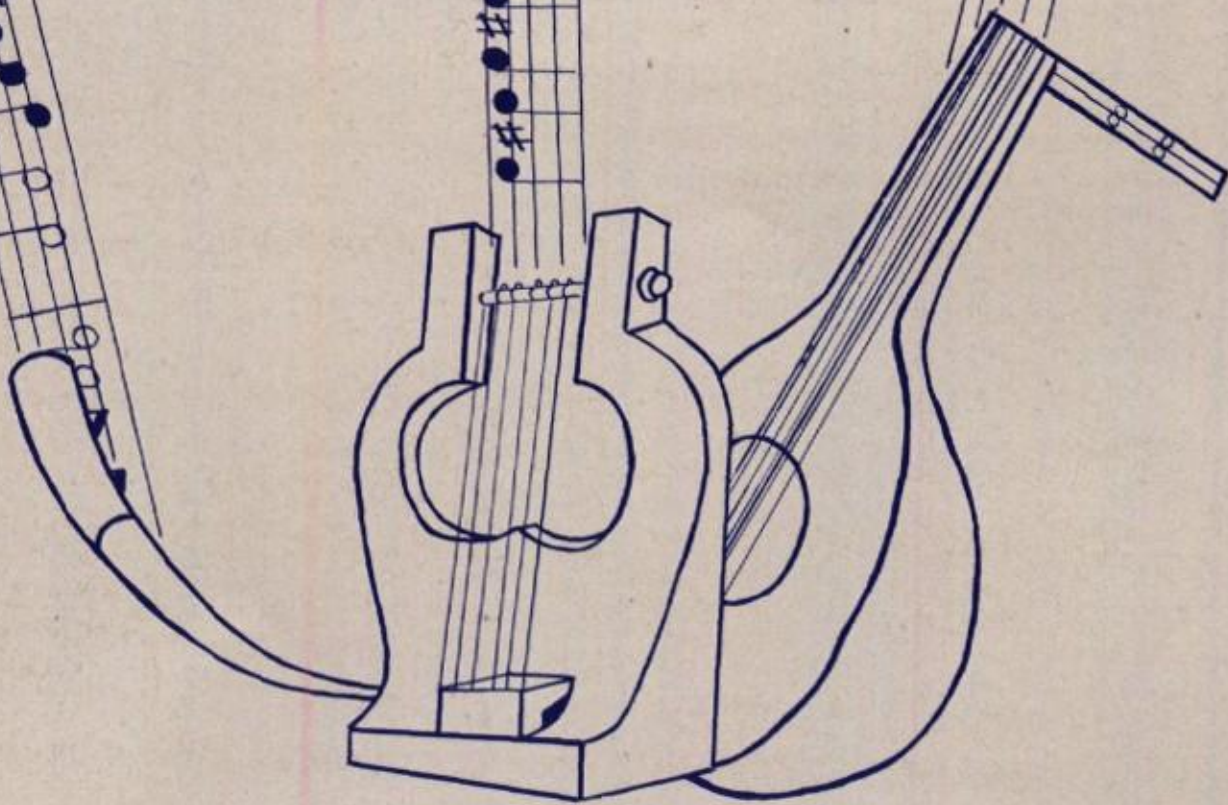

We end, as we began, with an outdoor sport on "The Hill." In the spring it's baseball, or as the girls play it, softball. This all-American sport has wide appeal both for the participants and spectators.

And so we complete another year of girls' athletics. We look back over many exciting episodes in sports and look ahead to many more of them.

The Debate Club this year developed three double teams ranging from freshmen through seniors. All teams engaged in interscholastic competition.

We conduct debating in such a way as to accomplish three objectives:

1. Teach students to speak easily and convincingly under pressure of a time limit.
2. Teach students to reason logically and to think on their feet.

3. Teach students to see all sides of a controversial issue and analyze the truth and fallacies of claims and statements.

This year we have debated the issue of whether or not the President of the United States should be elected by a direct popular vote.

The Debate Club has its own point system under which members may secure silver and gold medals for excellence in debating.

"He who will not reason is a bigot;
He who cannot is a fool;
And he who dare not, is a slave."

Monti Advertising

Monti advertising is, we believe, not a gift but a sound business investment. We sincerely appreciate the support of the business men without whose advertising money this book would have been impossible. We think that the readers of our book will also appreciate the support of the advertisers and show it by their patronage.

We point out that such advertising

1. Is valuable not only today, but tomorrow, next month, next year, and for many years to come. The Monti is not thrown away. It is looked at again and again.
2. Is read by more people for a longer period of time than any other publication produced in Monticello.
3. Is the best medium for making the young people your future customers.
4. Places you in the best company of advertisers in our community.
5. Makes new friends and keeps old ones.

Again, thank you.
